

# TNS Call Guardian

## Protect Your Subscribers by Delivering Real-time Reputation Profiles

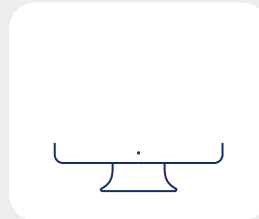

TNS Call Guardian is an industry-leading solution that uses real-time call events combined with crowd-sourced data to create accurate and comprehensive reputation profiles differentiating legitimate users of communications services from abusive, fraudulent and unlawful users.

- Accurately identify and score real-time call events combined with crowd-sourced data to create accurate and comprehensive reputation profiles differentiating legitimate users of communications services from abusive, fraudulent and unlawful users.
- Identify scammers and other abusive users in real-time and provide real-time alerts to subscribers.
- Help subscribers identify suspicious calls and take appropriate action.
- Provide real-time alerts to subscribers about suspicious calls from their neighbors.
- Provide subscribers with a secure way to report a robocall.

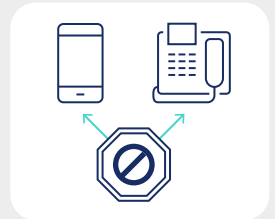

Real-time call events combined with crowd-sourced data to create accurate and comprehensive reputation profiles differentiating legitimate users of communications services from abusive, fraudulent and unlawful users.
