

**Intelligent Network (IN) capabilities are a mission-critical part of your network.  
They represent critical core network functionality and significantly contribute to revenue**

## Professional Services Practice

- 
- 
- 

## Intelligent Network Evolution

### The Next-Generation Intelligent Network (NGIN) Platform

### Core Network Applications

- Intelligent Call Routing (ICR)
- Advanced Toll-Free (ATF)
- Voice Virtual Private Network (VPN)
- Online Rating and Charging (OCS)
- Call Diversion (CDIV)
- Call Screening (Fraud)
- Number Portability
- Emergency Calling/E911
- Caller Intercept
- Zip Code Routing

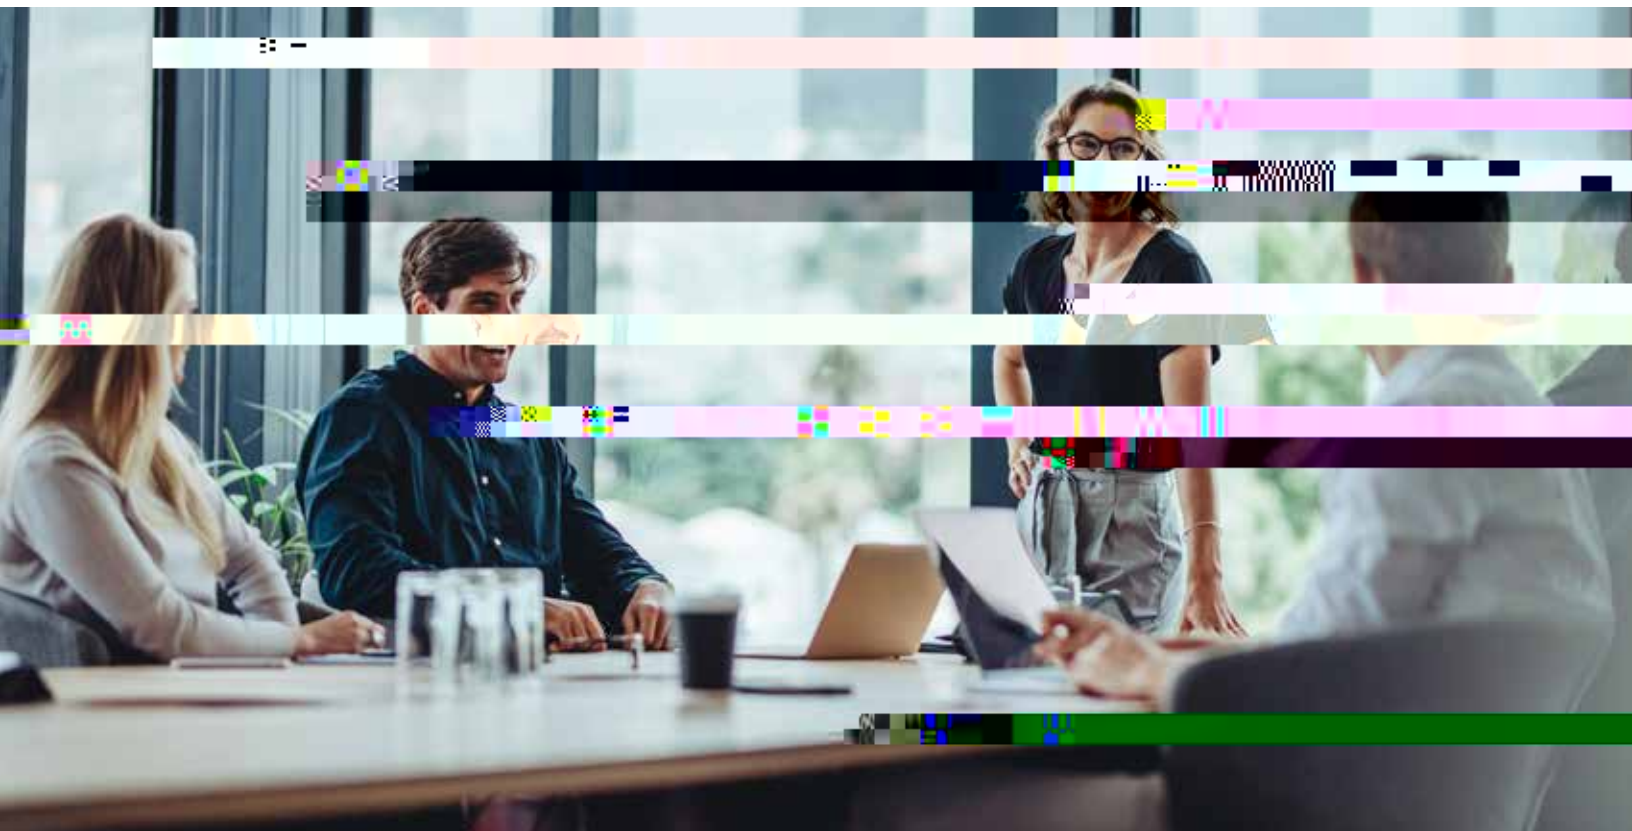

## Service Replication with Base Applications

## Path Forward with Extensibility, Open APIs and Service Creation Tools

fundamental IN capabilities (e.g. ICR, Voice VPN, etc.).
